## The Most Advanced Statistical Tracking Software for the Palm and PC

"Last year we won Northern California Div 1 High School Championship. I went and scouted the team we beat the week before we played them using ScoreKeeper. Made up some hitting charts on each one of their hitters from ScoreKeeper and used them during the game and it paid off in the last inning of the game. From the charts we moved our right fielder 10ft from the line with runners on 1st & 2nd and 1 out. We are up 11 to 7 and struggling and it's the bottom of the 7th our right fielder makes a diving catch right on the line to save us from a big inning. So thanks to TurboStats for all the help."
